

Why Choose Welton?

“ Together we care, learn and thrive. ”
- Welton St Mary's Church of England Primary Academy

As an outstanding church school , we take pride in living through our values.

'This is a very happy and caring school where Christian values such as friendship, peace and harmony and respect encompass the whole school day.' **Siams Inspection 2016**

Together with parents, governors and the wider community, we work in the interests of every individual child to help them be successful in the local, national and global community. We believe passionately in supporting every child to develop the skills, knowledge and understanding to be great citizens of the 21st Century.... 'independent thinkers and enterprising individuals who see learning as a life long journey.'

We want the same for the adults who work at Welton , for them to be successful, enjoy their work and strive to be the best they can be, giving them the support and challenge along the way. Want to join our learning community? Passionate about providing exciting learning opportunities for our children and continuing to learn yourself?

"We value every child as a unique individual and encourage them to believe in themselves and develop their interests and talents." **Welton St Mary's Church of England Primary Academy**

Who do we work with?

Collaboration is a significant part of what we do. We work closely with local primary schools, all of whom are good or outstanding, providing our staff with opportunities to share good practice and with a common moral purpose of providing a great education to all the local children.

We are also a member of Equate Teaching School Alliance, an alliance of over 40 schools who believe in:

'Education For Lifelong Learning'

The Equate Teaching School Alliance is a partnership of schools working to inspire, motivate and empower every child and professional to embrace lifelong learning. Our vision is for all members to contribute to and benefit from exceptional levels of continuous professional development, high impact peer support and evidence informed practice.

Friendship Trust Respect Responsibility Forgiveness Peace and Harmony

We believe that sustainable, system wide improvements are achieved by building strong partnerships that operate in a culture of trust, openness and integrity. We believe everyone has something to offer and something to learn. It is through working together that practice can be shared and contributed to, a culture of mutual support can be established and exciting, new ideas can be formed.

This is a very exciting place to be and a school in which everyone has the opportunity to thrive.
